

## Tailor Made Suits, Pants & Shirts

We count it as a personal mission to check out the quality of tailoring in Bangkok as much as possible. Bangkok is famous for excellent tailors and low prices ( guess 80% cheaper then US tailors) and there are so many to choose from. Finding a good tailor is always a hit-and-miss thing.

Actually, the real reason is off-the-rack suits don't fit most of people directly, so we have been looking for a good tailor to have some well-fitting suits, shirts or pants made.

Cheap does not mean good, and while it's nice to pay as little as possible, We rather have the clothes well done than to pay a bargain only to throw the clothes away. Poor quality shows eventually. Buttons fall off easily, the seams start giving way, and the worse sin of all - not fitting properly.

Therefore we searched long and hard for a tried-and-tested tailor in Bangkok.

Give yourself at least a week if possible to have at least three fittings done if possible. Our tailor will come to the hotel for the extra fittings.

We can sent you a fabric sample catalog and we keep your measurements or you can sent us your measurements with the online form (coming soon), so you can always place new orders without having to come back.
